

- 9.00: Matthew Gilliham: day introduction
9.05: Anton Middelberg: welcome

Industry speakers

- 9.15 Caroline Rhodes, Primary Producers SA
9.30 George Georgiadis, South Australian Spirit Producers' Association, Never Never Distilling

Session 1: Dryland agriculture

Chair: Jason Able (UoA)

- 09.45 Chris Preston: South Australian Drought Resilience Adoption and Innovation Hub
10.00 Stuart Roy: ARC Training Centre for Accelerated Future Crop Development
10.15 Jenny Mortimer: Plants in space
10.25 Bill Skinner: Hydrosocial adaptations in Langhorne Creek
10.35 Peter Hayman: What does climate science have to offer dryland farmers in South Australia?
10.45 Scott Boden: Inflorescence development and the changing face of wheat research

10.55 – 11.25: Morning tea

Session 2: Value added agrifoods

Chair: Tony Robinson (AWRI)

- 11.25 Vladimir Jiranek: Beyond Vintage: Alternate uses of winery fermentation capacity for diversification and profit
11.40 Vincent Bulone: An outline of research activities for the Research Consortium for Agricultural Product Development
11.55 Ali Gill: Industrial hemp: innovative seed solutions for the crop of the future
12.05 Juanita Lauer: Agave! A new Australian crop with a resilient spirit
12.15 Kerry Wilkinson: Consumer acceptance of insect-based pet food
12.25 Long Yu: Valorization of apple pomace through green and reactive extraction of bioactive compounds

12.35 – 13.25: Lunch break

Session 3: Supporting the agrifood and wine value chain

Chair: Catherine Sayer (Food SA)

- 13.25 Ian Fisk: International Flavour Research Centre is arriving in Adelaide
13.35 Bettina Berger: What's new at The Plant Accelerator?
13.50 Tim Cavagnaro: Carbon valorisation: achieving a carbon neutral farming future.
14.05 Armando Corsi: Wine business research that matters
14.15 Lenka Malek: Consumers' perceptions and willingness to consume lab-grown meat versus conventionally raised meat and plant-based protein alternatives
14.25 Hayriye Bozkurt: Future of Food Safety

14.35 – 14.55: Afternoon break

Session 4: Biosecurity and livestock well-being

Chair: Alexandra Whittaker (UoA)

- 14.55 Danny Wilson: Early stage drug development against human, livestock and zoonotic parasites
15.10 Wayne Pitchford: Livestock Wellbeing
15.25 Katharine Merkel: Managing fruit fly in South Australia
15.35 Jerome Buhl: Detection, monitoring and tracking of invertebrate beneficials and pests using innovative sensors and machine learning
15.45 Andrea McWhorter: Healthy Hens, Healthy Humans: Improving animal well-being and food safety by reducing biofilm on farms
15.55 Stephen Lee: Enhanced Abattoir Surveillance

- 16.05 Day wrap-up, followed by networking opportunities with drinks and nibbles
